USA	3.0

Stillbirth rate (SBR): number of babies born with no sign of life at 28 weeks or more of gestation

ND = No SBR data available for 2019

The mortality rates used as underlying data and shown as “VR submitted to WHO/UNIGME 2020 version (VR)” are calculated by UNIGME using standard methods with data from Rosstat.

*According to the UN M49 standard for classification of economies by development status provided in the Classifications Newsletter, 2021 ([link](#)). Accessed 16 Nov 2021.

** According to UNICEF Data Warehouse, data from 2019. Accessed 16 Nov 2021.
