

Bilaga 1 Sökstrategier Skattning av njurfunktion

Sara Wickström gjorde de första sökningarna för grupp 1 och grupp 2 i Pubmed. Karin Rydin har sedan upprepat Saras sökningar i övriga databaser. För Grupp 3 har Karin gjort alla sökningar.

I augusti gjorde Agneta Brolund en kompletterande sökning om ”single injection” efter önskemål från Grupp 1. Söksträng utarbetades enligt överenskommelse 2011-08-16 med Ulla Berg, Sten-Erik Bäck, Inga Soveri, Gunnar Sterner ur Grupp 1, projektledare Ingegerd Mejaré. Sökningarna utfördes 2011-08-23.

I november 2011 uppdaterade Agneta Brolund alla sökningar i enlighet med projektledarens och de tre gruppernas önskemål.

De tre projektgrupperna har sökt i Pubmed, Cochrane library, Embase och Cinahl. Grupp 1 har dessutom sökt i Web of science. Ekonomisökning endast gjord på grupp 3:s sökning.

I detta dokument först redovisat i tabellform därefter samma sökningar i ”löptext” .
